To Whom It May Concern:

Sirtex Medical Pty Ltd located in Sydney Australia initiated a global project aimed at restructuring its accounting system. As a result, Sirtex Medical Europe GmbH had recently engaged the services of COMPUS Computer GmbH of Munich, Germany to assist with the implementation of Microsoft Dynamics AX.

COMPUS were tasked with the responsibility of ensuring compliance with German accounting standards (namely the interface to DATEV) as well as German and European VAT. In addition, COMPUS were responsible for the training of European staff concerning system functionality and use thereof.

In our opinion, we found COMPUS to be very competent in all facets of their assignment. Furthermore, they were always able to meet deadlines and were very responsive when assistance was required. We strongly endorse the use of COMPUS for the implementation and training of Microsoft Dynamics AX products, particularly where an interface between DATEV is required.

Sincerely,

Nigel T. Lange
Geschäftsführer
